

This template is suitable for posters measuring 36 inches high by 48 inches wide at 100%, see *table for size options*

Title: replace the text with your title: The current font size is set to 72 pts, which is the equivalent of one inch. This can be modified to suit your needs, although the preset size should be regarded as a minimum. The color may be changed to match the scheme selected.

Your Name / Authors and Affiliations: replace the text with your text (if text will be cut and pasted, always paste text into a text box)

The font size is set to 54 pts, which is the equivalent of 3/4 inches. The size and color can be modified to suit your needs.

Crests / Logos: May be inserted into the text boxes provided

Actual Content: Four schemes are provided. All schemes can be edited for color and/or size. The default font size within the text boxes is 28 pts.

•Once you have chosen the desired scheme. Select and delete all the elements (within this template) that do not apply (this includes the table and these instructions)

•Select the preferred text box/Header combination, copy and paste as required, edit the header tags (example: Abstract-Results-Conclusions)

•Avoid cutting and pasting images from other applications. *It is preferable to insert (task bar) picture from file*

•Elements of the poster created in PowerPoint may not print the same color as viewed on your screen.
